

# Miracles Today

Dr. M.W. Lewis

San Diego, 9-7-58

“Miracles Today”

Well the definition of miracles is as follows: an event or an affect in the physical world beyond, or out of, the ordinary course of things. But in a miracle, no law is contradicted, no law is suspended, but the ordinary law is superseded by the Higher Law. That's all.

Perhaps to illustrate the point, a little instance, incident, that happened quite some years ago. I was rushing to an SRF meeting in Boston. That was a time when I was sometimes late. But I am not late any more. So I was rushing to get there to the meeting, and it was an icy, it 'twas a winter's night, and the streets were covered with ice. I came to this bridge, and up over the top – and it was a narrow bridge with a car track on one side – and just as I came up, going rather fast, there was a car that had skidded and was right half-way stopping the traffic on the bridge. Well, I didn't feel so bad, except it wasn't my car, it was my sister's car. I felt, “Here I am traveling fast to do God's work and look, look at the mess I am going to get into.”

So, I got all prepared, and ya know, there was a Force came, a Force came and just stopped that car within just a short distance of the other car. And the two people that were with me there – my sister and Sister Yogamata, Mrs. Hasey she was then – they both noticed it and said, “Did you feel that?” I said, “Yes, I felt it.” You see, God's Consciousness, and the Power of His Consciousness, which is Cosmic Energy, is an Intelligent Force. Now, in our dreams you might go through that happening, in your dream. And in your dreams you even enjoy things, and yet, there is no activity within yourself. So it is, if we realize this dream, and wake up from it, we can see that just as it happens in your dream, that's, the incident might have happened just the same and there had been no movement on my part, except for sleep.

So, in this Dream of God, in the same thing, the Force is Conscious, and although, sometimes, it acts according to the law of this plane in which we live, in that particular instance, it did not happen according to the Law. But the Pranic Energy, which is the Cosmic Energy of God with, His Consciousness behind it operated, because God is Conscious. He is Ever-present, All-

pervading, and it happened, and it worked, and it was definite, you would call it was a miracle.

Another incident comes to my mind. When I was quite young and used to be quite mischievous; I enjoyed teasing my sisters to no end; and I was carrying it on in good shape this day, I guess. I was upstairs at the end of the hall, a long hall, and my mother was up the other end of the hall in her room. And I guess the Lord had enough of me, because the Voice came right out of the Ether and said, calling me by name, "Stop teasing your sisters and be a good boy and go downstairs!" I stopped. The Voice came right out of the Ether! And the maid down in the kitchen heard it, and my mother spoke from her room, calling, calling me by name. She said, "I heard that voice, too." So I stopped, in a hurry.

But it shows, now in your dreams, couldn't that happen just the same? A voice could speak to you, and you hear it? You've heard the Voice in your dream or you've tasted food. So, the same thing is in God's Dream, it works the same way – the Intelligent Force responded. I think I know why the Force responded. I think my mother just could not handle me, and she prayed to God to do something about it, and He did. And it worked.

So those, those are just two illustrations that come to my mind, and I, I didn't forget it.

Now, another illustration of a miracle is what is happening to Self-Realization Fellowship devotees every day. Many of them are meditating and they are seeing the Presence of God's Light at the Christ Center; they are hearing His Cosmic Sound; and they are feeling His Love; and they are seeing Him move and act in their lives without the use of ordinary senses, mind, or intellect. They are doing that right along. That the miracle. And those who meditate will see that. You cannot see the Light of Christ at this point [Doctor indicates the point between the eyebrows] with the ordinary senses of sight – physical sight – but you can see it through Intuition.

And so, you see when you supersede these worldly laws and then you utilize the Higher Law of Spirit and Soul, then it's called a miracle. That I know there are many, right in this room, every day who are performing the miracle of contacting God's Presence. And that's the greatest miracle that's laid before us, is the ability to be one with God and feel His nearness and feel His Love, and see His Light guiding you, and hear the Cosmic Sound. There's nothing that will give you the solace that that does. That's the miracle, that's the miracle we should be

interested in. Other miracles are secondary compared to the miracle of contacting God. There's nothing that will satisfy you, or me, or anybody, because we are on our way back home in a Conscious way then, and that's why we're here. And so, true devotees do that.

An entire phenomenal world is under the law of polarity or duality, is all based on the electromagnetic phenomena of light. Light! "God said, Let there be light..."<sup>1</sup> God's Consciousness began to move. He said, "Let there be light," which is His Consciousness moving, the Great Cosmic Energy, from which all things come. And then, when that energy begins to move and forms this outward existence, this world, then it takes on a dual nature, and then the Unity of God's Presence is lost. The Unity where there is no getting away from His Love, and His Security, and His Peace and His Bliss, where there's no distractions. In this world there's distractions, because there's duality. That's the nature of light, which I will show you in a few minutes, if I can.

And yet, behind that duality, which we see so much of now, is the Unity of God's Light – Free Electrons of which science speaks. But it is because of the dual nature of those little atoms of light that causes us all our trouble. One aspect is the wave action, and that's why these little atoms of light, seem light, as we know it; and the other is the idea, or the aspect, of forming a particle. That's just simply the make up of Free Electrons, or light atoms. And it's those two aspects that causes light and shadow, which has produced this world, just like the beam from the motion picture booth produces the light and shadow on the screen. Realize that! That's the key to all of miracles.

And so, understand that this Cosmos is a varied expression of one power – Light. But behind that Light is God's Great Intelligence directing it, and that's the important thing. So, if you are attached to the light and shadow aspect of this creation, then you will always be deluded. But, if you supersede that and become one with the only real aspect of this worldly existence – which is God's Light – that's the only thing that's real and true and substantial, if you are one with that, then you are above duality; then there's no suffering; and then you understand this Cosmic Dream.

So realize that that's what we must do. We must not cling to the duality, but we must cling to the Unity, which is beyond the duality. You take the motion picture; if you cling to the motion picture, with its light and shadow, and all its

---

<sup>1</sup> Genesis 1:3, "And God said, Let there be light: and there was light."

aspects; and if it is a picture you do not like, you're in a mess. But, if you see the beam, coming down from the projection booth, and realize that's the cause of the light and shadow, then instead of being carried away by the picture you do not like, you will feel the Bliss and Peace of that Light, which is God's Presence. Then whether the picture is a drama, or a tragedy, or a comedy, you understand it. You have to see the cause of the miracle, which is God's Light.

Now, everything that has a beginning – that's when the motion picture is projected on the screen, it has a beginning and will have an end. It's got to. And so, this projection of God's Light has a beginning, perhaps a long time ago, but it'll have an end. We cannot afford to be attached that. But only to the beam of Light behind it.

And so, everything is Light. That's the only unwavering, or substantial, thing in the universe – only constant thing – His Light. It doesn't seem possible, as I look, and you see me, and I see you, and all the different colors, and shapes, and everything, and your hats, and the whole business. But behind that's Light – God's Light. Well, you can dream, can't you? And your own consciousness, through the projection of its light, produces the scene, perhaps, which I see here, and you can have all kinds of hats, and shapes, and people, and when you break it, where is it? There's one constant thing left is God's Light. The same with this world; and that's the miracle – how God has done it – produced all of this from that One Light.

An illustration of what God's Light is comes to my mind. Master and I used to come home late at night, sometimes, early in the morning, in Encinitas. And he always used to walk back and forth out in front there on the lawn, it was level. So we used to walk there, back and forth. That's where I learned a lot of philosophy, and some of his realization, I hope, rubbed off. But anyway, we used to walk back and forth. And this particular night, he came in, it was late, and I said, "I go now, sir." He said, "Ah, wait a minute. Let's go into the kitchen." So we went in the kitchen. You know, when the Guru says, "Come on," you don't say, "Oh, no sir." You come. So I went in.

He just, he had a very peaceful attitude that night, and he was poking around, and opened the refrigerator, and he looked in, and took out two potatoes and a couple of squash, I guess. He was fooling with it, and put it in a pan, a saucepan, and put some butter, I guess, and seasoned and cooked it. He was in a very happy mood, and I ate it, and boy, it was good! The simple things were good. And so we talked a little more, and then I went to my room. And when I came in

the room the whole room was light. Light – God’s Light. And I watched it quite a little bit. His calmness and his contact with God had stilled my restless mind so that I was perceiving, through Intuition of the Soul, God’s Presence as Light. And so, the next morning I said to him, or the next day, I said, “Sir,” I said, “when I went to the room last evening it was all light.” And he said, “Yes, when I cooked that, those vegetables I was pretty much in God’s Consciousness.” That’s why it tasted so good and that’s why the Light was there.

So, there you have an illustration of the underlying reality. The only thing that’s with us and constant is God’s Light. And the wonderful part is that by following the techniques of one like the Master, who had that realization, by following him and his techniques, you can also perceive that Light, as he has spoken so many times in the Autobiography<sup>2</sup> of that Light, or the beam which came down upon him. So, that’s the most wonderful thing is that we, too, can perform, or go through this so-called miracle, if we will.

Now, creation is a miracle itself, as I have said, by the Thought of God. The Thought of God, God’s Consciousness, plus His Will is His Thought. Now, understand that simple thing. God’s Consciousness plus the Will behind it is God’s Thought, or Mind Stuff, as science calls it. That’s the basis of all Creation. That first thing is the Mind Stuff, which is God’s Consciousness, plus His Will. His Will – that’s the Power. Now, by those two things, or by His Thought, by His Consciousness and His Will, he produces what – Light or Cosmic Energy. And when you perceive that Light, when you go in your meditation, and go deep beyond this little worldly existence, you will see that Flame of God’s Light spread all over. That’s what God is, as it says in the scriptures, and I will come to it in a minute. Now, from that, from that Light all things have been produced and are produced, and the Power behind that Light, the Cosmic Energy of God, is atomic energy from God’s Thought. And the scientists are proving that, and I’ll give you a couple quotations in a moment.

And so, there we have creation. First we have the Thought of God; then we have the Free Electrons, or light, and, as I told you a few minutes ago, those little electrons have a dual nature. That’s what causes the light and shadow. The first is the wave action of the electron, which gives it the property of light; and the second is the idea of particles, that it forms an idea of substance, when it’s nothing but vibrating light. The electron microscope has shown that. They took

---

<sup>2</sup> Autobiography of a Yogi, by Paramhansa Yogananda, First Release 1946, (Available FREE on the Internet).

tungsten, tungsten for instance, and through the electron microscope you can see in the lattice work the little vibrating points of light – atoms of light vibrating. So, the wave action gives the idea of light, plus the idea of particles, gives you the atom, or the form; and from those two properties of light, all of this light and shadow comes. That's the miracle. The greatest miracle is Creation. And understand that the Power of Creation behind it, or atomic energy, is the Cosmic Energy of God. And that comes how? From His Thought or Mind Stuff, plus His Will.

Now, those two things produce the whole business. They produce all this miracle of creation. It is difficult to put into words, but understand that that there's only one constant thing behind all creation – or behind anything – is God's Light. Because there's only One Substance in the universe – One Eternal Substance – and I'll give you a quotation in a minute, and that is the Eternal Substance is God's Consciousness, that's all. Your own consciousness, every night, if you dream, you take that consciousness, and you create that light; and you project that light through a little film; and you have a dream. And when you wake up you say, "Oh, I was dreaming." What is left? Your consciousness, that's all. The same with God; we're made in His Image.

And so, God's Consciousness is the only Substance, the Eternal Substance, and when it begins to move, then, comes its Power, and that's the Cosmic Energy. God's Cosmic Consciousness, plus His Cosmic Energy produced the Light from which all things have come due to that one little thing – that those atoms of light have a dual nature. That gives the light and shadow. That's as near as I can tell you. It is a hard thing to describe, and yet is so simple. So realize, Light is the constant property of God's Presence, and we can be that Light.

Now, another point that comes to mind is this: that you know all of the scientists point out now, that matter is constantly changing, it does not stay still, but it becomes energy, electromagnetic force, and finally light. Nothing stays still. Now, what did the yogi's do? They speeded up that process. They took their bodies, which have a mass, and they speeded up the vibration of the cells within them, and they became Light. And matter, when it increases, or the speed of matter increases to light, then its form is lost. There's no form. So that's why the yogi's can travel from place to place, because they speed up the vibration of their body and the light within them, until they become God's Light, which is God's Body, and then all things are possible.

Now, that's what you do in meditation. And if you keep at it, you will speed up the vibration of your being until you become that Light of God, and you will find yourself all over the place – as God's Body is all over, so will yours be. That's the miracle, and that's the Law behind all miracles; is to increase the vibration, or the vibratory rate of your being, until you become Light. And you have the Law with you, because matter is constantly changing into Light. Understand that. It first becomes electromagnetic force and then it becomes Light. And if you add up the weight of the light atoms and they're the same as the mass. So, God is Light. God is Light. And the only constant in the universe is Light.

And so, why not be that? Why be satisfied with a secondary role where you're changing all of the time? Why be satisfied with the light and shadow? Why not be the Light which produces the light and shadow? Then they can never throw you away; they can never take away your individuality as a child of God. But they can, unless you become Light. And that you can do through regular meditation, and deep devotion, and the Grace of God, which is the greatest thing.

So, finally, one other thing which comes to my mind here, is Einstein's Unified Field Theory, which is just as I have told you. He, Einstein realized that there was One Eternal Substance, and that was God's Thought, or Mind Stuff. And from that, through the increase of its vibratory rate, different things form: first Light, and then, from the Light this Creation of light and shadow. That, in a few words, is Einstein's Unified Field Theory.

And so, these light atoms have the atomic energy which holds them together as the outward atom. And you know the strength of that atomic energy – you've been reading about atomic bombs for quite some time. That's God's Cosmic Energy. Through His Will holds those atoms of light together – not atoms of matter – atoms of light, and the grouping of those produce matter; and in us produces all of our cells, and muscles, and bones, and different organs. All from light! Now, the only way you can prove it is to meditate, and you will find yourself as Light. If you can do it in a conscious way, and expand your consciousness so that it vibrates to the speed of light, then there's nothing you cannot do. But that takes practice and God's Grace.

I have a reference here, which I think will help us at this time. From the Autobiography, as I have said, there is One Eternal Substance, and all scientists agreeing now, that there is One Substance, and that's Mind Stuff. And Mind Stuff is nothing but God's Consciousness, plus His Will moving it. That's the

point. They have found that everything resolves to that. And right in the AY<sup>3</sup> we have a wonderful illustration, which I will read at this time: "On the epochal Theory of Relativity have arisen the mathematical possibilities of exploring the ultimate atom. Great scientists are now boldly asserting not only that's the atom is energy rather than matter, but that atomic energy is essentially mind stuff."<sup>4</sup> Imagine that atomic energy, which we use in such crude ways and disgraceful ways sometimes, is the Mind Stuff of God. God has made certain laws; He's given man free will; He doesn't like to take that free will away from them. That's why they're causing the destruction. But He can, and perhaps He may have to. Master said once, "He did it one time with the Flood and cleaned the place out by the flood. Perhaps it'll get so bad He'll have to do it again." It looks that way doesn't it? So the whole thing is Mind Stuff of God. And here you have that, right from the, excuse me, the Autobiography. Mind stuff equals the Consciousness, plus the Will of God. That's atomic energy. That's the Power of Cosmic Energy in the universe. And there you have that right in Master's Autobiography.

And another illustration; this shows how the scientists are coming around to the idea, the idea of this universe not being a mechanical thing, but a Thought of God. And so, we read on page 277, "The stream of knowledge," Sir James Jean writes in his Mysterious Universe,<sup>5</sup> "is headed toward a non-mechanical reality. The universe begins to look," he says, "more like a great thought than like a great machine." And so it ends by saying: "Twentieth century science is thus sounding like a page from the hoary Vedas, 'He who knows Brahma, knows God.'<sup>6</sup>" He who sees the Light of the Holy Vibration and becomes one with it becomes God. That's what the Vedas have said. And that's what we can do, because Jesus said, "The things I do ye shall do and greater things."<sup>7</sup> (*Sic*)

---

<sup>3</sup> AY, is an abbreviation for Autobiography of a Yogi, Ibid.

<sup>4</sup> Ibid, Chapter 30, "On the epochal Theory of Relativity have arisen the mathematical possibilities of exploring the ultimate atom. Great scientists are now boldly asserting not only that the atom is energy rather than matter, but that atomic energy is essentially mind-stuff."

<sup>5</sup> The Mysterious Universe, Sir James Jean, 1930

<sup>6</sup> Op. Cit., Autobiography of a Yogi, Chapter 30, "The stream of knowledge," Sir James Jeans writes in *The Mysterious Universe*, "is heading towards a non-mechanical reality; the universe begins to look more like a great thought than like a great machine." Twentieth-century science is thus sounding like a page from the hoary *Vedas*." "From science, then, if it must be so, let man learn the philosophic truth that there is no material universe; its warp and woof is *maya*, illusion. Its mirages of reality all break down under analysis. As one by one the reassuring props of a physical cosmos crash beneath him, man dimly perceives his idolatrous reliance, his past transgression of the divine command: "Thou shalt have no other gods before Me."

<sup>7</sup> St. John 14:12, "Verily, verily, I say unto you, He that believeth on me, the works that I do shall he do also; and greater works than these shall he do; because I go unto my Father."

We are made in the Image of God. Just like He had Christ Consciousness so has each one of us lying dormant within us. And the Light of Christ, is Christ Consciousness. And from that Christ Consciousness all things have come. That's the miracle, and that's what we must know and become.

And so, finally, here is the key to the Law of Miracles<sup>8</sup>. There is so much in that Chapter on Miracles in the AY that you have to pick out the high points, so to speak, it is so deep and there is so much to it. But here is the key to the Law of Miracles: be that omniscient consciousness and light of God. Be that! Then you will not be bound by the duality of this outward existence. You can prove that if you meditate deeply. If Master, as Master said, "If you sit for twenty-four hours, and keep at it, you will see yourself as Light and Light all around you." Now, you may not be able to hold it, but you can in time, and, at will, can bring that Light right with you. Now, that's the key to the Law of Miracles.

Secondly, this Omniscience is not subject to the laws of gravity, time, or space. How can that be? Kant, I think it was that said that: "Time and space exists only as attributes of the mind."<sup>9</sup> So in God's Light there's no gravity. That's why even some of the devotees going deeply, they come up a little bit. Why, because gravity is overcome, and time and space surely is because sometimes an hour will pass by and you'll say, "Oh, it seemed a minute or two." So you see in God's Omniscient Light and Consciousness you can prove these things, and you can realize that gravity does not exist, and time and space do not, also, exist. That's the second point in this key to miracles.

And the third is this; a child of God becomes The Cosmical Essence. That simply means Light or the Body of God. These are wonderful thoughts, and wonderful realities. The child of God, the true devotee of God, meditating regularly, and becoming one with God, becomes the Cosmical Essence, or the Body of God, or Light Eternal.

To make another point is this: there is no difference to him, then, between the vibrations of land and air and water and fire. They're the same. A different rate of vibration, that's all, a different rate of vibration. But vibration of what? Of Light – God's Light.

---

<sup>8</sup> Op. Cit. Autobiography of a Yogi, Chapter 30, "The Law of Miracles"

<sup>9</sup> "Critique of Pure Reason", A xi, by Immanuel Kant (1724-1804), "Appearances are to be regarded as being, one and all, representations only, not things-in-themselves... time and space are therefore only sensible forms of our intuition, not determinations as existing by themselves..."

And another point: the delusion of duality disappears in the Matrix of Light. Meditate and try it, and you will find that when that Light comes, there's no duality. Duality belongs to the shadow realm. Light is the Light Realm. In the shadow realm, light and shadow, we have duality. But in God's Light, there's no duality. It melts in the Matrix of God's Light.

And finally, from this Omniscient Consciousness and Light of God, all things have been created. God first created Light, and from that Light all things have come. In the scripture we have a wonderful reference to that, which I have on the next page, and I will come to it in a minute – what it 'tis speaks of God as Light.

At this time Master's poem, when he says, "When I am but a Dream:<sup>10</sup>" "When you cannot find me in unplumbed space" – when you cannot locate me, because I am in the Light of God – when you cannot find me, what's he say to do? Read my Whispers From Eternity.<sup>11</sup> Read them, because by reading them you are lifted into the Omniscience of God's Light. And he says, "I will reach down and I will guard you with invisible arms, and I will reach down and lift you that you, too, will realize the love of the one Father which I realize." Then He concludes by saying, "And when you realize that you are a dream of the Cosmic Beloved, as I now realize I am, then, we will be together eternally.<sup>12</sup>" When you realize that you are but a beam of that One Light of God, as I now realize it, then we will be together in that common Matrix of God's Great Light and Love – eternally. That's what He was saying.

---

<sup>10</sup> "When I am Only a Dream," by Paramhansa Yogananda, Inner Culture, 1940 (Excerpt),  
"... When no earthly call will ever reveal  
My whereabouts in unplumbed space  
When no shallow entreaty or stern stentorian command  
Will bring an answer from me,  
... Read my Whispers of Eternity.  
Eternally through that I will talk to you...  
And guard you with invisible arms.  
And as soon as you know my Beloved  
And hear His voice in silence,  
You will know me again more tangibly  
Than you knew me in this earth plane...  
And when you know you are a dream, as I know now,  
We all will be ever awake in Him."

<sup>11</sup> Whispers From Eternity, by Paramhansa Yogananda, First Release 1949

<sup>12</sup> See Footnote 10.

And so that poem "When I Am But a Dream" is a wonderful poem. Read my Whisper's From Eternity, because they came from God. He is a channel of God. If you read it feeling God's Presence is with it, you will be lifted into that One Light of God. Even though you may not see it at first, you'll be lifted there; finally, it'll be your own. When you make it through Realization and meditation, then it'll be always with you. The same Light which guided the Children of Israel, guides each and every one of us, and is there burning, if we but know it, become it, become one with it.

I will close by a reference or two from the Master's book; and this shows about or points out that the body of the true yogi is the Body of God, or the One Eternal Light. That's what we are. And instead of being scared that we're gonna be nothing you'll realize, you are everything, because God's Consciousness is in that. And so this is what we read: That is the mass of the yogi's body reaches the speed of light.<sup>13</sup> That's why you can find them in different places, as Mr. Koobatian read about, because they became that Light and went a place and then came down in the shadow as the body. So we read, "The consciousness of a perfected yogi is effortlessly identified not with a narrow body but with the universal structure..." of God's Light.<sup>14</sup> "Fiat lux, ...Let there be light and there was light," (*sic*) we read in Genesis. "God's first command, and with that command He brought into being the only atomic reality or Light." (*Sic*) Realize that. God's Thought, His Mind Stuff, plus His Will, produces the only atomic reality or Light. Then he goes onto say, "On the beams of this immaterial medium occur all divine manifestations. Devotees of every age testify to the appearance of God as Flame and Light."<sup>15</sup>

---

<sup>13</sup> Op. Cit. Autobiography of a Yogi, Chapter 30, "The masters who are able to materialize and dematerialize their bodies or any other object, and to move with the velocity of light, and to utilize the creative light-rays in bringing into instant visibility any physical manifestation, have fulfilled the necessary Einsteinian condition: their mass is infinite."

<sup>14</sup> Ibid, "The consciousness of a perfected yogi is effortlessly identified, not with a narrow body, but with the universal structure. Gravitation, whether the "force" of Newton or the Einsteinian "manifestation of inertia," is powerless to *compel* a master to exhibit the property of "weight" which is the distinguishing gravitational condition of all material objects. He who knows himself as the omnipresent Spirit is subject no longer to the rigidities of a body in time and space. Their imprisoning "rings-pass-not" have yielded to the solvent: "I am He."

<sup>15</sup> Ibid, "'Fiat lux! And there was light." God's first command to His ordered creation (*Genesis* 1:3) brought into being the only atomic reality: light. On the beams of this immaterial medium occur all divine manifestations. Devotees of every age testify to the appearance of God as flame and light. "The King of kings, and Lord of lords; who only hath immortality, dwelling in the light which no man can approach unto." "On the beams of this immaterial medium occur all divine manifestations. Devotees of every age testify to the appearance of God as flame and light. "The King of kings, and Lord of lords; who only hath immortality, dwelling in the light which no man can approach unto. (I Timothy 6:15-16)"

Light spread all over! The sun resplendent in all its glory is God. And we read that just here in [1<sup>st</sup>] Timothy the 6<sup>th</sup> Chapter the 15<sup>th</sup> and 16<sup>th</sup> Verse, "The King of King's and Lord of Lord's who only hath immortality dwelling the light which no man can approach unto...<sup>16</sup>" That doesn't mean the devotee, it means no one with ordinary vision can see the Light of God. But with meditation and becoming a devotee of God, then you can see it and become one with it. And finally, "Long concentration on the liberating spiritual eye has enabled the devotee to destroy all delusions concerning matter and its gravitational weight...<sup>17</sup>" there is no gravity in Light, there is no time or space, "thenceforth he sees the universe as an essentially undifferentiated mass of light."

And from our own Bible, Ezekiel 43<sup>rd</sup> Chapter, first two Verses, "Afterwards, He brought me by the way of the gate even the gate that looketh toward the East: " The Christ Center here [Doctor indicates the point between the eyebrows]. "And behold the glory of God..." that's His Light, the one constant thing in the universe "came from the way of the east: and his voice..." that's the Cosmic Energy, "was like the noise of many waters:" that makes the Cosmic Sound that you hear in your meditations, "and the earth shined with His glory.<sup>18</sup>" The earth became the Eternal Light of God and gave forth God's Glory.

So, there you have, "Miracles Today." You have the way that you can perform the greatest miracle of knowing you are not this body, but you are the One Eternal Light of God.

---

<sup>16</sup> I Timothy 6:15-16, "Which in his times he shall shew, who is the blessed and only Potentate, the King of kings, and Lord of lords;" "Who only hath immortality, dwelling in the light which no man can approach unto; whom no man hath seen, nor can see: to whom be honour and power everlasting. Amen."

<sup>17</sup> Op. Cit, "Long concentration on the liberating spiritual eye has enabled the yogi to destroy all delusions concerning matter and its gravitational weight; thenceforth he sees the universe as an essentially undifferentiated mass of light."

<sup>18</sup> Ezekiel 43:1-2, "Afterward he brought me to the gate, even the gate that looketh toward the east:" "And, behold, the glory of the God of Israel came from the way of the east: and his voice was like a noise of many waters: and the earth shined with his glory."
